Appl. No. 10/572,724 Amendment dated April 6, 2009 Reply to Office Action of January 13, 2009

AMENDMENTS TO THE SPECIFICATION:

Please replace the paragraph beginning at page 16, line 4, with the following rewritten version:

[0074] As a result, as shown in FIG. 13, it is possible to obtain cylinder block 101 cast with cylinder liner 104 103. Since the surface of the cylinder liner 103 is roughened in the same manner as inner surface 5 of the cylinder bore described above, it is possible to increase the adhesion of cylinder liner 103 to cylinder block 101 thereby obtaining high-quality cylinder block 101.
